Skills

Programming: Java

Frontend: HTML5, CSS3

Backend: Advanced Java, JDBC, JSP, Servlets, JEE, MVC, DAO Pattern, Singleton Pattern, Factory Pattern

Database: MySQL

Core Concepts: Object-Oriented Programming (OOP), Operating Systems, DBMS, Computer Networks

Projects

Food App – Web-Based Food Delivery System

June 2026

Java, JSP, Servlets, JDBC, MySQL, HTML5, CSS3, MVC, DAO, JBCrypt

- Developed a full-stack **Food Delivery Application** with separate **Customer Portal** and **Admin Dashboard** using **Java, JSP, Servlets, JDBC, and MySQL**.
- Implemented secure authentication using **JBCrypt** password hashing for encrypted user registration and login.
- Built dynamic restaurant and menu browsing with real-time database integration and session-based shopping cart functionality.
- Designed complete order workflow including checkout, order placement, and order history management.
- Created an Admin Dashboard supporting full **CRUD** operations for restaurants, menus, and customer orders.
- Applied **MVC Architecture** and **DAO Design Pattern** to improve maintainability and modularity.
- Integrated **JDBC** with **MySQL** and deployed the application successfully on **Apache Tomcat**.
- GitHub:** github.com/Kannika-22

Experience

Tap Academy

Jan 2026 – Present

Software Development Intern

Bengaluru

- Applied **Core Java** concepts including OOP principles to build scalable application modules.
- Developed dynamic web pages using **JSP** and **Servlets** for handling user requests and responses.
- Implemented **DAO Pattern** and **MVC Architecture** to separate business logic, presentation, and data access layers.
- Connected Java applications with **MySQL** using **JDBC** for efficient data management.
- Designed responsive frontend interfaces using **HTML5** and **CSS3**.
- Integrated **JBCrypt** authentication and developed a secure session-based shopping cart.
- Built and deployed a complete Java web application on **Apache Tomcat Server**.

Achievements

- Government of India Copyright Application:** Smart Parking System under review (Diary No. LD-35641/2025-CO).
- Completed the **Cyber Suraksha Program** conducted by Tata STRIVE and Microsoft (Sep 2024).
- Successfully completed **UML Training** through Infosys Springboard (Dec 2024).

Education

APS College of Engineering

Bengaluru, India

Bachelor of Engineering (Computer Science Engineering) – CGPA: **8.67**

2022 – 2026
